

City of Rushford Village Policy on Snow Removal

1. The basic criteria for snow removal is any snowfall of 2 inches or more. Generally the CRV maintenance staff will try to wait until the majority of the snowfall has stopped before plowing.
2. In the event of rain or snow resulting in icing conditions the CRV maintenance staff will exercise their judgment as to when sanding is required.
3. The goal is to make the streets safe and passable for ordinary regular passenger traffic. The CRV maintenance staff will work to cover all CRV streets as soon as they reasonably can after any winter storm event. They will also attempt to do the winter road maintenance in a cost effective manner.
4. If any business, commercial, or other operation that uses the CRV streets requests additional materials and/or maintenance, this additional cost will be billed to the requestor.
5. CRV is no longer plowing or applying product to private drives unless there is a risk to avoid injury to person or property.
6. CRV Residents may pick up salted sand in a small container (5 gallon pail) at no charge at the maintenance building,
7. Report any issues regarding CRV roads to the CRV Office at 507-864-7974. Leave a message, phone messages are check regularly. In the event of an emergency, refer to the CRV Newsletter or go to www.rushfordvillage.govoffice.com for contact information.

Approved by Council December 19, 2017

Gordon Johnson, Mayor
